DIP 2017 – 9th International DIP Symposium on Diabetes, Hypertension, Metabolic Syndrome & Pregnancy of which Maternal Medicine meets Fetal Medicine

Dates: 08 Mar 2017 - 12 Mar 2017

Location: Barcelona, Spain

Abstract: The DIP Symposium brings to the forefront and insight to the issues faced with Diabetes, Hypertension, Metabolic Syndrome & Pregnancy. The field of diabetes and pregnancy has come of age; from the inception of the terminology

'gestational diabetes' and 'diabetes in pregnancy' to the creation of an entire sub-specialty. This currently includes not only abnormal carbohydrate metabolism and diabetes, but all other risk factors and complications related to obesity, metabolic syndrome, hypertension and pregnancy.

Superbugs & Superdrugs

Dates: 20 Mar 2017 - 21 Mar 2017

Location: London, United Kingdom

Abstract: SMI's flagship show in its global Superbugs portfolio of events has been expanding horizons on the growing threat of anti-microbial resistance (AMR) and infectious disease for almost two decades. Now in its 19th year, Superbugs & Superdrugs returns to London on 20th and 21st March 2017, providing a focal point for its growing "superbugs" community to exchange novel solutions and consolidate current strategies. Hear from panel of speakers who will hone in on key issues such as funding, animal models in drug research and antimicrobial peptides. Highlights include an exclusive keynote address from the FDA.
